

# WE SOLVE IT ALL

## Consulting Services

AERIS Consulting Group provides a full range of Consulting Services to support our customers' business, specializing in Business Analysis, Business Process Renewal, and Management Consulting. AERIS delivers the following services internally but can draw from a pool of external consultants should a different expertise or team size be required to achieve project success. Engagements can be tailored to suit the client's needs from part time to full time contract, project/engagement based, or longer advisory engagements.

AERIS Executive Partner, Greg Leepart, received his Project Management Professional (PMP) designation in 2009. Leveraging his strong technical background, he has successfully delivered a wide range of IT solutions, ranging from custom builds to off theshelf configurations. He utilizes his strong service-oriented skills when working with vendors, project stakeholders technical assets, and subject matter experts (SMEs) to achieve project goals.

## Business Analysis Services

Using proven methods, tools, and techniques, our Business Analysts: **AERIS uses proven methods, tools, and techniques to...**

- Define the requirements activities for what will be performed
- Determine how activities will be performed, taking into account any existing organizational standards or methodologies
- Facilitate the gathering of complete, clear, correct, and consistent requirements
- Analyze and structure requirements for use in the design and implementation of a solution
- Define and describe the characteristics of an acceptable solution to a business problem
- Ensure the solution meets the stakeholder objectives, is thoroughly tested, and is implemented smoothly
